Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on July 08, 2005 has been entered.

Remarks

2. Applicants' remarks filed on July 08, 2005 have been carefully reviewed and noted. The Examiner appreciates Applicants' thorough and detailed analysis of the distinction between the prior art and the current invention, and the Examiner generally agrees with the remarks.

3. Claims 29-39 are allowed.

4. The following is an examiner's statement of reasons for allowance:

Claims 29-39 are allowed primarily because claims 29 and 35 require a thin oxide layer to be formed (located) between the amorphous silicon layer and the (patterned) heating plate areas, and performing a PRTP to heat the heating plate areas such that the amorphous silicon layer (underneath the thin oxide layer) is melted and changed into a polysilicon layer. Such a process for crystallizing an amorphous silicon layer cannot be anticipated or fairly suggested by the references of record, singly or in combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
